June 30, 2020

Ms. Rachael Link

Dear Ms. Link,

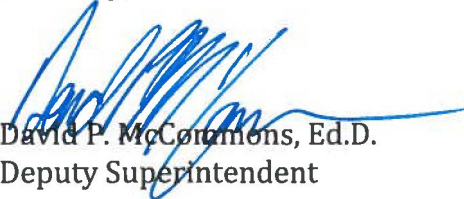

I am writing in response to your comment at the School Board Meeting on Monday, June 29, 2020, regarding class size and the Act 93 vacancy.

The district recognizes your concern for large class size, which is why our Board has adopted policy to mandate class size maximums. Weekly, the district monitors our enrollments throughout the summer. Over the course of a summer, enrollment may fluctuate especially this year given the pandemic. As we approach the end of summer, if a grade level is over the Board's class size limits, the district will look to add another section. However, the earliest any decision will be made is for the August 10, 2020, School Board meeting.

The Act 93 vacancy at O'Hara Elementary School is for an assistant principal. Since Dr. Reljac will soon officially be our superintendent, she will be a part of the process to fill this position.

I appreciate your comment and hope this explanation helps. Thank you for taking the time to attend the School Board meeting.

Sincerely,

David P. McCommons, Ed.D.  
Deputy Superintendent
