

FOX CHAPEL AREA HIGH SCHOOL

COUNSELING DEPARTMENT

.....

COLLEGE SELECTION INDEX

Graduates 2016-2017-2018

The following chart has been developed by the Guidance Staff at Fox Chapel Area High School. The information contained here represents the **2016, 2017 & 2018** graduates of the high school and the post-secondary schools that accepted or rejected their application for enrollment. Each line on the chart shows an actual student in terms of the cumulative quality point average (QPA), best total SAT score (old format and new format), best composite ACT score, relative difficulty of high school program, college major and the action taken by the schools to which the student applied. Not all graduates are included, some graduates have requested to be removed from the database.

To use this chart, find the QPA range, SAT and or ACT scores, which are similar to yours. This will help you determine some schools, which may seriously consider your application. Naturally there is no guarantee that you will be accepted at such a school as the conditions and numbers of applicants change yearly; however, you may be able to determine which schools are realistic choices for you.

The difficulty of the high school program is defined as follows:

1. Most demanding, including at least four accelerated or AP courses, plus other academic course offerings;
2. Signifies completion of an average academic load including at least three years of science and math, perhaps two years of a foreign language plus other academic course offerings;
3. Indicates a less demanding or perhaps a non-college-bound schedule during the majority of the high school experience.

SAT/ACT scores with (-) indicates the student did not have SAT or ACT scores reported to FCAHS. College and/or University names followed by (B) = branch, (WL) = wait listed, (A) = attending.
