

Dan Macek, RA

Dan Macek, RA, LEED® AP BD +C, is a project architect with Canzian/Johnston & Associates, LLC in New Kensington, Pennsylvania. Macek provides a full range of architectural services for educational K-12, higher education, light industrial, commercial, recreational, religious, institutional and residential projects. His portfolio of work spans geographically from eastern Pittsburgh through central Pennsylvania.

With Canzian/Johnston & Associates for over 20 years, Macek has particular expertise in the areas of educational K-12 projects and higher education projects. He has designed and managed projects for the Allegheny Valley School District, the Kiski Area School District, the New Kensington Arnold School District as well as the Pennsylvania State University. Most clients retain Macek and the team at Canzian/Johnston & Associates as their architects for years, building strong professional relationships.

Additionally, Macek brings a passion for historic preservation as well as sustainable design. For Penn State University, Macek led a masonry restoration project for a prominent Main Campus building, Schwab Auditorium. He is a LEED Accredited Professional and applies concepts of sustainability to all projects. For all projects, Macek brings a commitment to managing client needs, aesthetics, and budgets. He has a talent for process management that he combines with a high-touch approach to client relationships to ensure smooth execution of complex projects.

Macek received his Bachelor of Architecture from The Pennsylvania State University and his Master of Architecture in History and Theory from McGill University in Montreal. He lives in Aspinwall with his wife and three children who attend Fox Chapel Area schools.
