

**JOIN US FOR THE FIRST OF OUR FALL SPEAKER SERIES:**

**WEDNESDAY, SEPTEMBER 18 AT 7:00 PM**

**“What She Told Them”- Brain Development in Teens, risk-taking, drugs, alcohol, vaping.**

Libby Ernharth brings the lecture she has been giving to Fox Chapel Area School District 9th and 10th Grade Health classes to YOU, the parents. It's a talk about brain development in teens, risk-taking, Oxys, Heroin, Nicotine, Marijuana, Alcohol and Vaping. Get the conversation started about what's going on with your kids and the effects it has on them. **DON'T MISS THIS TALK IF YOU ARE A PARENT OF A TEEN OR TWEEN.**

Libby Ernharth is a PA in Infectious Diseases and created this lecture in response to the onset of vaping and significant Heroin issues in the local hospital communities in the past several years. The Fox Chapel Area High School Gym and Health teachers have brought her in to do case presentations for the past 2 years.

**Admission is FREE. RSVP to Sarah at [sstallings@lauriannwestcc.org](mailto:sstallings@lauriannwestcc.org)**
