### Quality Point Average (QPA)

The Quality Point Average (QPA) is cumulative and is computed using all grades earned while attending Fox Chapel Area High School. The QPA is compiled at the end of each academic year. Any grade earned in a course taken for makeup is recorded in addition to the grade originally earned in that course; however, credit is granted only once. Summer school grades become part of the record for the following school term.

Quality Point Averages are calculated in two ways. Both QPAs are calculated for each student and recorded on that student's permanent record card. The **unweighted QPA** is calculated without regard to curricular subjects.

The quality point equivalent assigned to grades is the same in each course. This places all course offerings on an equal basis and every student has an opportunity to earn a high QPA. The **weighted QPA** places greater emphasis upon more academically challenging courses taken at Fox Chapel Area High School, and is used most frequently in the college admission process. The extra weight is given to grades by increasing their quality point value. The courses receiving this additional weight are all English accelerated courses, all social studies accelerated courses, biology accelerated, chemistry accelerated, and physics accelerated, as well as all AP courses.

### Class Rank

Fox Chapel Area High School does not rank students. Instead of class rank, deciles will be reported when requested.

### Student Records

Due to the increased concern over matters where personal privacy may be violated, the Fox Chapel Area School District has acted to ensure the proper usage of student records. To avoid the release of any confidential information to unauthorized persons or institutions, an Information Release Form must be signed by both students and parents. Transcripts will not be forwarded to colleges or prospective employers without a release form on file.

### Transcripts

Midyear senior transcripts will be submitted automatically to all schools considering the student for admission. Final transcripts will be submitted automatically to the institution to which the student is planning entrance.

### Recommendations

The official recommendation is written by the student's school counselor with assistance from the administration and faculty.

### COVID-19 (*Special Note*)

Due to the COVID-19 pandemic, during the second semester of the 2019-2020 school year, students had the choice of electing the final percentage earned for each course, or opting to receive either a PASS (P) or Withdraw-COVID (WC) for the course, depending on what was earned for the course.
