

March 17, 2020

Dear Parents and Guardians,

We want to make you aware that it was reported to us today, Tuesday, March 17, that two high school students have a brother who, the evening of Monday, March 16, tested positive for coronavirus after exhibiting mild symptoms upon his return to the area on Friday. The district was not made aware of this information until Tuesday. One of the siblings came to retrieve belongings at Fox Chapel Area High School on Monday between approximately 11 a.m. and 1 p.m. The sibling who tested positive is not a student at Fox Chapel Area High School and was not in the school.

The school district is in the process of identifying and attempting to notify any students who may have come in contact with the student while he/she was in the high school on Monday.

Per the Centers for Disease Control and Prevention (CDC), if you develop a fever and symptoms, such as cough or difficulty breathing, call your health care provider to obtain medical advice.

Sincerely,

David McCommons, Ed.D.
Deputy Superintendent
